WORK EXPERIENCE

Uline

eCommerce Data Analyst Intern

Pleasant Prairie, WI

May 2025 – August 2025

- Analyzed web performance data and created reporting resources for a \$9B+ ecommerce website
- Wrote a Python program to monitor web usage metrics using API connections, time-series analysis, and statistical learning methods to automate bug detection
- Utilized SQL to write queries for SQL Server and Google BigQuery for data requests and dashboards
- Created PowerBI dashboards which utilize incremental refreshes from multiple data sources with features like cross-report synchronized filters using master tables

Purdue Recreation and Wellness

Intramural Head Supervisor

West Lafayette, IN

March 2025 – Present

- Worked in office to support sports leagues, answer patron emails and calls, and assist staff members
- Oversaw staff development responsibilities which included professional development, accountability, and providing additional feedback to reporting supervisors
- Supervised on-site shifts including intramural supervisors, officials, patrons, and spectators while giving on-shift feedback to intramural supervisors and being the point of contact for emergencies and complications

Allied Solutions LLC

IT/ETG Operations Intern

Carmel, IN

May 2024 – August 2024

- Automated server maintenance by writing scripts and scheduling tasks which led to improved storage efficiency and server performance
- Utilized Terraform to provision AWS compute instances using infrastructure as code (IaC)
- Assisted in configuration and management of AWS cloud compute and storage services needed for software products and applications
- Managed databases for multiple environments with SQL Server Management Studio (SSMS) and created scripts to update data when necessary for banks, credit unions, and other lenders

LEADERSHIP AND INVOLVEMENT

Delta Chi Fraternity - Purdue Chapter

President

West Lafayette, IN

November 2024 - Present

- Collaborated with Purdue FSCL and IFC office, faculty advisors, the alumni board of trustees, and international headquarters to ensure growth and accountability to standards
- Responsible for financial, membership, and incident reporting to different offices
- Led a chapter of over 50 men to receive Core Competency Awards from HQ for justice and education

Business Analytics and Information Management Student Association

VP of Membership Development

West Lafayette, IN

March 2024 -Present

- Surveyed over 100 association members to gauge interest, engagement, and satisfaction to improve association performance by changing events and organizational structure
- Conducted interviews with potential committee members to add more qualified and committed students to the leadership group
